May	1981	...	1.857 MU

(b) The Board will complete the construction work of new sub-Station of Hathbargi during the year 1981-82.

Malaprabha Irrigation Project

866 SRI G. K. TAKKED (Parasgad).—Will the Minister of State for Major and Medium Irrigation be pleased to state:—

(a) the reasons for non-implementation of repeated assurances of Government to the people of submerged villages of Asundi of Saundatti taluk and Badli and Katral villages which were submerged in the Malaprabha Irrigation Project that lift Irrigation facilities would be provided there;

(b) the steps taken by Government to complete this work ?

SRI B. B. CHIMMANAKATTI (Minister of State for Major and Medium Irrigation).—

(a) Singarakoppa and Yenagihettanagi Lift Irrigation Schemes were completed in 1979-80 to help the agriculturists of Asundi village which was submerged in Malaprabha Irrigation Scheme and water supplied to about 1629 acres of lands in the upper region of Asundi village.

The quantum of maximum utilisation of water under the Malaprabha Project has been assessed at 44.30 TMCFT. In the recent past the availability of this quantum of water has become difficult. As such, taking up any new Lift Irrigation Schemes would not be possible. Therefore it would not be possible to provide lift irrigation facilities to Badli and Kathrala villages under the Malaprabha Scheme.
